DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 4-7, 9-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Aspnes et al. or DuBois in view of Horikawa et al.

Applicant argues that GLP-1, insulin and other treatments have been known to prevent diabetic cardiomyopathy but that it does not follow that one would use GLP-1 to treat the disorder.

This is not well taken since the references are clear that they do treat as is noted at the cited places in the references which are of record.

Thus applicants arguments are without merit.

Claims 4-7, 9-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Efendic in view of Horikawa et al.

The same arguments are applied here as well as the same rebuttal.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1654

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
